

Resident's Council Open Meeting 3/7/24

Environment and Landscaping Committee Report

The Dormant Pruning project for the bushes around the front circle, Killarney and Shannon was completed successfully. With the warm weather we're having the bushes will be blooming soon and we'll be able to see healthier plants in these areas.

We are in the process of organizing our Earth Week celebrations for April in partnership with the Sustainability Committee. As always the highlight of these celebrations will be the April 25 Earth Fair. There will be many of the displays that you love including a pill disposal service, free paper shredding, and other Earth Friendly exhibits.

Our committee is very pleased to announce that MR has approved a professional grade filter system for the Koi Pond. This will keep the water clear and clean, eliminating the cloudy/chalky appearance of the water, support larger fish size and help prevent fish disease. Once the system is installed, we will no longer have to use blue dye or other chemicals to keep algae under control.
